

NATURAL SCIENCES RESOURCE STUDIES PROBLEM

Original and one copy of the completed form should be submitted to the regional director for his review. The regional director retains one copy and forwards the original to the Office of Natural Sciences Studies in WASO. Refer to the "Natural Sciences Studies Handbook" for additional information.

PARK Craters of the Moon National Monument	REGION Pacific Northwest
---	---

1. Title of Problem (Brief Name)
Re-introduction of Bighorn Sheep

2. Statement of Problem (Use continuation sheet if needed for further explanation)

This is to be a cooperative effort. The N.P.S., the BLM and the Idaho Fish and Game Department will re-introduce Bighorn Sheep on BLM land just south of the CRMO boundary. To keep the sheep from leaving the area a temporary fenced enclosure is necessary. Artificial water holes (guzzlers) would also be necessary. These would be permanent structures in the monument and outside.
